

in a nutshell

the inception

like most interesting twists and turns that happen in life, the story begins at a coffee shop. ours was no different. the journey over the past 9 years has been a roller coaster ride. today, we are a david taking on the goliaths. we will remain a david. nimble-footed, agile, responsive, accountable & execution-driven, some keywords synonymous with us.

our journey began as a start-ups focused agency, today, we have some big names too in our portfolio. yet, our focus remains unchanged. the entrepreneur. then, the enterprise he creates.
